

Manuel Mezo

SR .PM, SUPPLY CHAIN AT AMAZON.

Profile

Program **Leader** and **AI Enthusiast Builder** with 8+ years of experience translating complex operational challenges into high-value product solutions for global manufacturers and logistics (Amazon, McKinsey). I leverage **Supply Chain, S&OP, and Process Optimization** to drive user-centric product discovery and achieve measurable business value. Proven ability to enhance forecast accuracy, streamline capacity planning, and deliver **millions in annual savings** by **building robust, data-centric tools** and coaching high-performing teams.

Employment History

Sr PM - Supply Chain Planning, Amazon, Spain

SEPT 2023 – PRESENT

- Designed a new long-range forecasting methodology for EU truckload demand supporting IBP/S&OP cycles, that led to **\$140Mn CapEx** in transportation equipment in 2025.
- Extended forecasting horizon to 12 weeks, improving planning of approx. **800k labour hours annually**.
- Improved inventory transfers truck fill rate modeling (inaccuracy reduced from 35% to 17%), cutting truck addition and cancellations rates by approx. 20k trucks annually saving ca. \$1.8Mn.
- Resolved recurring truck shortages by fixing a logic defect in the automated scheduling system, protecting approx. **\$10Mn extra cost** in late truck additions.

Operations Consultant, McKinsey & Company, Spain

AUG 2022 – JUL 2023

- Revamped production capacity planning for a global pharmaceutical manufacturer through an automated, KPI-oriented model across **6 plants and 13 production lines**.
- Optimized production batch sizes across 9 plants, saving **\$800k/year** (1.1% of conversion costs).
- Analyzed and revamped production plan of a train manufacturer, recovering **2.5 months of delivery delays** and cutting penalties by **\$1Mn**.

Sr PM – 3PL Quality and Operations Excellence, Amazon, Spain

SEPT 2017 – AUG 2023

- Led the planning and implementation of **multi-item order shipping capability** across 10 3PL sites, generating **\$10Mn+ transport savings**.
- Designed and built network-wide inventory audit programs across 50+ sites/warehouses, improving the **Inventory Record Defect Rate (IRDR) metric by 50%**.
- Recovered a severe inventory defects crisis (from 120k to <10k DPMO in 8 weeks), driving process re-design.
- Led root cause investigation and settlement negotiation on a **\$7Mn disputed inventory loss**, protecting 3PL partner relationships.

Skills

Ecommerce

Integrated Business Planning (IBP)

Sales & Operations Planning (S&OP)

Demand & Supply Planning

Business Data Analysis

Scenario Planning & Decision Support

Continuous Improvement

Cross-functional Facilitation

Coaching / Knowledge Transfer

Programming (SQL, Python)

Dashboards (Tableau, Power BI, Quicksight)

Languages

French (B2)

English (Proficient)

Spanish (Native)

Hobbies

AI side projects

Arduino projects

Basketball

Hiking

Skiing

Scuba diving

Travelling

AI Side Hustles

- **X-Ray Medical Agent:** Autonomous diagnostic agent powered by **Computer Vision** for real-time medical image analysis (try it [here](#))
- **Monument Scout:** Location-based discovery app using **Geolocation APIs** and **AI-powered explanations** to explore nearby historical monuments (try it [here](#))
- **WMS Prototype:** Mobile-first inventory system leveraging **on-device Camera Vision** for barcode scanning and real-time cloud synchronization (try it [here](#))
- **FoodStats App:** AI-powered nutrition tracker using **Image Recognition** to decompose meal photos into detailed nutritional components (try it [here](#))

Tech Stack

Development & Execution

- **Languages:** Python (Advanced), C++, Matlab, SQL (Advanced), JavaScript (Basic)
- **Deployment:** Docker, Git/GitHub, CI/CD pipelines

AI and Cloud (LLMs, APIs & SDKs)

- **Cloud Platforms:** AWS (S3, EC2), Google Cloud Platform (GCP)
- **AI & Custom Tools:** Lovable, Antigravity, Kiro, Firebase (Studio, Hosting, Auth), LLMs (OpenAI, Gemini, Claude, Grok), OpenRouter
- **Automation and integrations:** n8n for workflow automation

Data Analytics & BI

- **Processing & Modeling:** Pandas, NumPy, ETL/ELT (Extract, Transform, Load), Data Modeling
- **Visualization:** Tableau, Power BI, AWS QuickSight, Matplotlib, Seaborn
- **Skills:** Insights generation, KPI/metric definition, data storytelling

Education

Master's thesis, Aerospace Engineering, Delft University of Technology, Netherlands

JAN 2017 – AUG 2017

Master's degree in Aerospace Engineering, Universidad Carlos III de Madrid

JAN 2015 – JAN 2017

Bachelor's degree in Aerospace Engineering, Universidad de León

JAN 2011 – JAN 2015

Bachelor's degree in Mechanical Engineering, Universidad de León

JAN 2013 – JAN 2016
