Applied AI Solutions Engineer. Technical leader bridging enterprise operations at Amazon and McKinsey with applied AI development. Optimized systems for multi-million-dollar efficiencies; now architecting agentic workflows and real-time Voice AI applications using Python, TypeScript, and modern LLM stacks to deliver measurable business ROI.

TECHNICAL SKILLS

- **Languages & Backend:** Python, TypeScript, JS, REST APIs, Node.js
- **AI Orchestration:** Multi-Agent Swarms, RAG, OpenRouter, LangChain, Gemini/Claude
- **Voice AI:** Retell.ai, Voiceflow, ElevenLabs, VAPI
- **Cloud & Automation:** n8n, AWS/GCP, CI/CD
- **Computer Vision & ML:** OpenCV, YOLO (fine-tuning), Ultralytics, Roboflow, ByteTrack,

APPLIED AI & AUTOMATION PROJECTS

- **Ember & Roast (AI Voice Customer Service):** Deployed voice-first agent (Voiceflow/Retell.ai) with real-time Vercel order lookups and Resend email automation.
- **SupplyChain-Swarm-Sim (Multi-Agent Simulation):** Built adversarial supply chain simulation with Claude Code swarms to stress-test logistics against disruptions.
- **Voice Booking Agent & LLM Orchestrator:** Developed AI assistant for Google Calendar management via natural language and OpenRouter cost-comparison interface.
- **VisionAI & X-Ray Medical Agent:** Built Gemini 2.5 Flash applications to detect and diagnose medical scans with live bounding boxes.

PROFESSIONAL EXPERIENCE

Amazon | Manager, EU Transportation Forecasting (Feb 2026 – Present)

- Leading a team of 6 BIEs/PMs to deliver a strategic roadmap aiming for >\$10M/year in operational savings via ML bias correction and automated health checks.

Sr Program Manager, Supply Chain Planning (Sept 2023 – Feb 2026)

- Automated long-range forecasting driving \$140Mn CapEx decisions and resolved scheduling logic defects, saving ~\$1.8Mn annually.

McKinsey & Company | Operations Consultant (Aug 2022 – Jul 2023)

- Redesigned capacity planning for global pharma, saving \$1.8Mn through automated KPI-oriented modeling across 13 production lines.

Amazon | Sr PM, Ops Excellence & Quality (Sept 2017 – Aug 2022)

- Directed BI reporting for EU logistics and led WMS integrations across 30+ warehouses, improving inventory audit accuracy by 50%.

EDUCATION

- **MSc in Aerospace Engineering** | Universidad Carlos III de Madrid & TU Delft (Exchange)
- **BSc in Aerospace Engineering & BSc in Mechanical Engineering** | Universidad de León
